

SRA AND PROGRAM CRITERIA

CONCLUSION OF THE SRA CRITERIA

- Contributes to the Tivit mission and objectives and Tivit foresight analysis and strategy
- Identifies the research themes in the SRA field for the next 2-4 year in Finland which
 - Are by nature such where industry and academic worlds should co-operate
 - Takes Finland into the top 5 globally in the broad sense given substantial funding
 - Enables breakthroughs
 - Enables birth of new business ecosystems
 - Strengthens Finland's international impact
- Proves the novelty and strategic impact of the research
 - Remarkable breakthrough targets
 - The state of art analysis indicates the world class level of the research
 - The scenarios and/or roadmaps of the outcomes indicate the innovativeness and the impact within the time frame of 3-5 years

CONCLUSION OF THE PROGRAM CRITERIA

- Contributes to the Tivit mission, SRA program mission and objectives and Tivit strategy
- Proves the novelty and strategic impact of the research
 - Remarkable breakthrough targets
 - The state of art analysis indicates that the world class level of the research is reachable
 - The scenarios and/or roadmaps of the outcomes indicate the innovativeness and the impact within the time frame of 3-5 years
- The coherence of the research program
 - The projects or the sub-areas of the program clearly are linked together and perform the objectives of the program as a whole
 - The program is application/business driven and multidisciplinary
- Balance between the industry and research at program level
 - Industry driven focus areas
 - The consortium represents capable actors and competences of the presumed ecosystem
 - The research questions are tackled by leading edge research partners
- International collaboration and impact
 - Credible influence in international research actives, standardization, etc.
 - Business impact globally
